General Engineering Contracts

Fiscal and Management Control Board

November 18, 2019

Joseph A. Pavao, Jr., P.E., Office of the Chief Engineer

Purpose of GECs

The execution of these general engineering contracts will provide the Office of the Chief Engineer with the design capacity to accelerate scoping and pre-design of projects to support delivery of the Capital Improvement Program. These contracts will be used to provide conceptual-level designs to fully define projects for execution by Capital Delivery.

Example task orders assignments will support:

- System-wide power program
- Bus modernization program
- Bus facility interim repairs
- Facility studies and interim repairs
- General infrastructure repairs and modernization
- Design Standards and Guidelines

Procurement Process and Timeline

This procurement process was conducted consistent with a qualifications-based selection process for the requested architectural and engineering services.

Key Dates:

- June 17, 2019 Advertisement of RFQ (17 firms submitted qualifications)
- August 2, 2019 RFQs evaluation complete [11 firms selected for request for proposals (RFP)]
- October 8, 2019 RFP evaluation and scoring complete
- October 9, 2019 Selected firms notified
- October 17-18, 2019 Negotiations commenced
