

Orange Line Transformation

Construction Project Updates

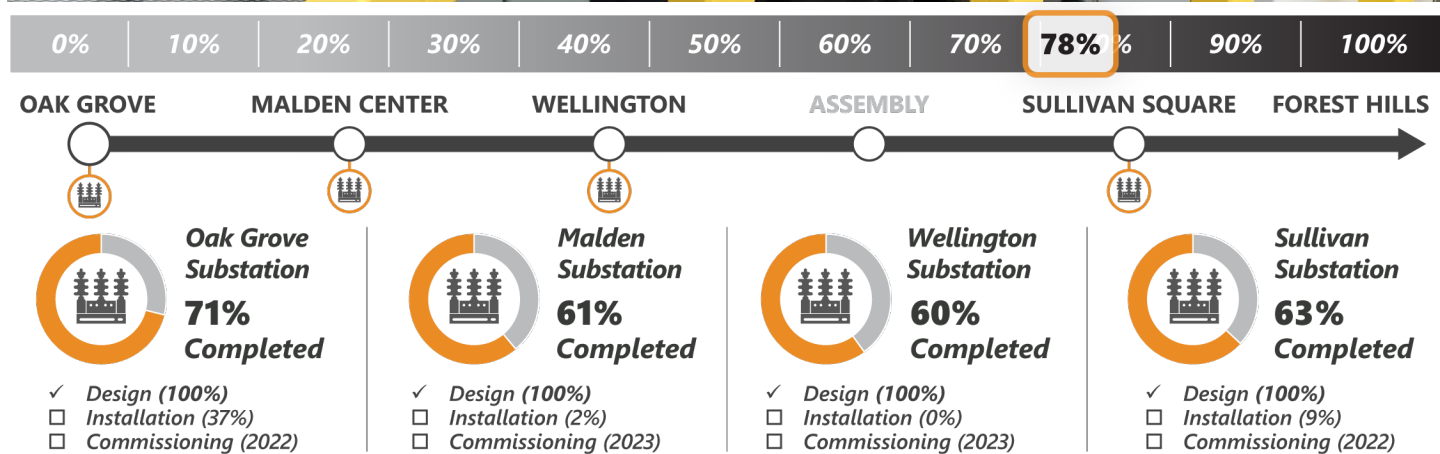

Week in Review and Lookahead

Friday, March 4, 2022

Work continues on the [Orange Line Transformation \(OLT\) Program's](#) active construction projects, including Wellington Yard and Maintenance Facility, and the Traction Power Substations. Read more about project progress below

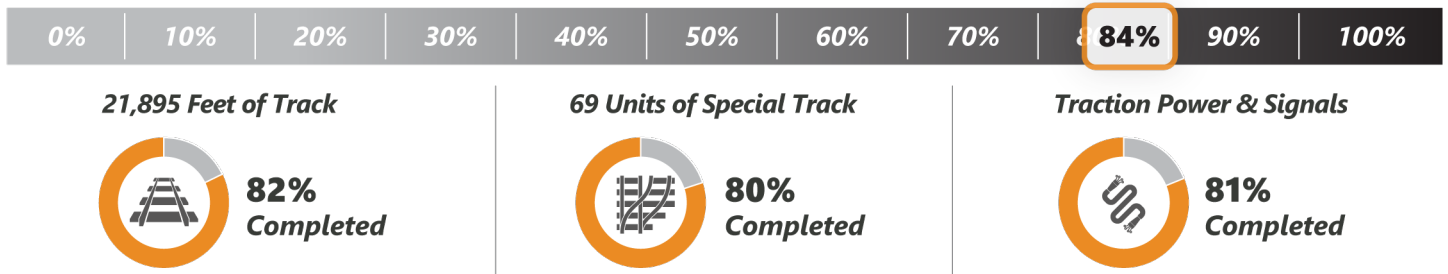

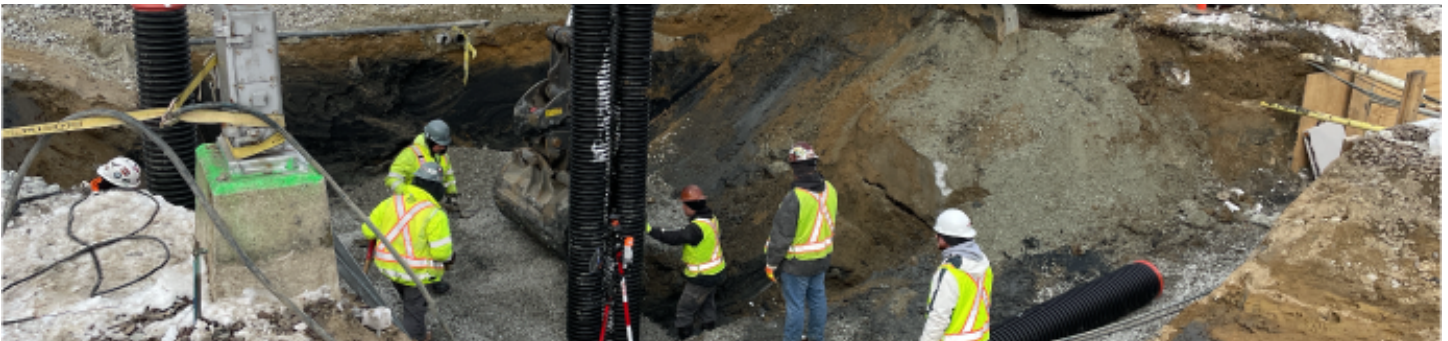

Traction Power Substations

Traction Power Substations: Modernize the third rail power supply to reduce the risk of service disruptions; develop a power system capable of supporting additional Orange Line service

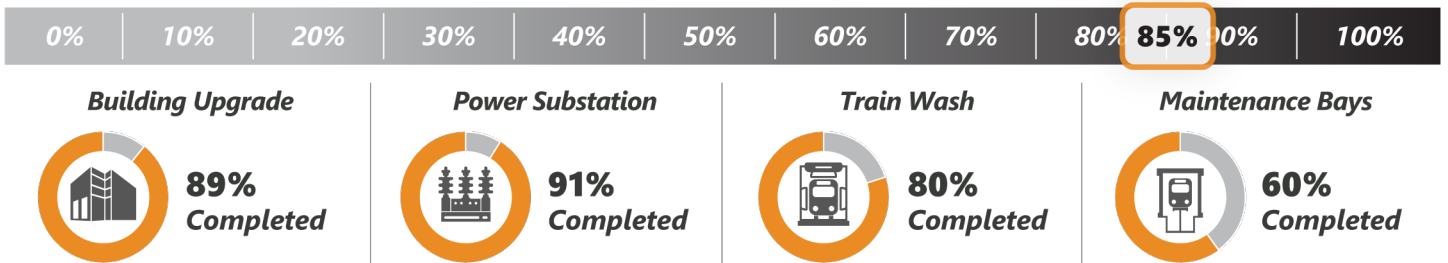

- ✓ **This Week** | Began point to point testing of power system infrastructure
- **Lookahead** | Continue point to point testing. Investigate communications cable connection at Sullivan Square

Wellington Yard and Maintenance Facility Updates

Wellington Yard: Upgrade Wellington Yard to increase service capacity, replace outdated infrastructure, and enhance safety.

- ✓ **This Week** | Completed storage tracks 31 and 32. Began work on Tracks 36-38 for track adjustments
- **Lookahead** | Begin signal testing and the installation of duct bank in the North Yard. Continue track adjustments for tracks 36 and 38

Wellington Maintenance Facility: Modernize the Vehicle Maintenance Facility to improve vehicle maintenance; reducing customer wait times, provide cleaner cars, and deliver safer operations.

- ✓ **This Week** | Continued reconstruction of track structure of building tracks including car wash track 20 to accommodate new Orange Line vehicles. Also worked on fire alarms and architectural finishes
- **Lookahead** | Continue reconstruction of track 20 and painting of barrier wall of track 14 (Zone 6). Begin installation and testing of fire alarms in Tracks 12 and 13
