

# Orange Line Transformation

## Construction Project Updates

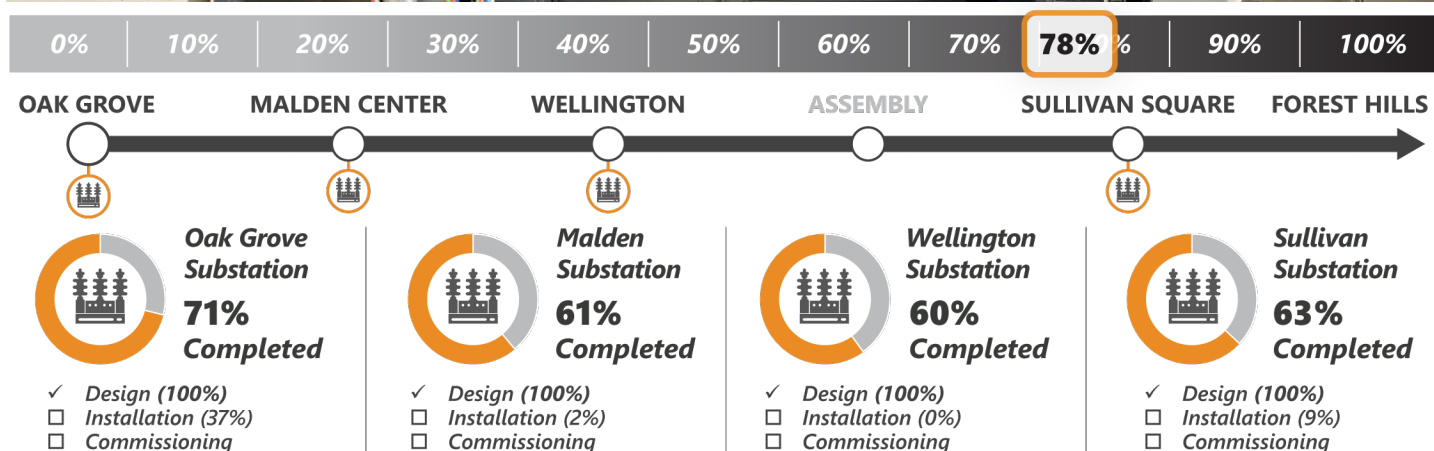

## Week in Review and Lookahead

Friday, March 11, 2022

Progress continues to be made on the [Orange Line Transformation \(OLT\) Program's](#) active construction projects, including Wellington Yard and Maintenance Facility, and the Traction Power Substations (TPS). Read more about the work being done below

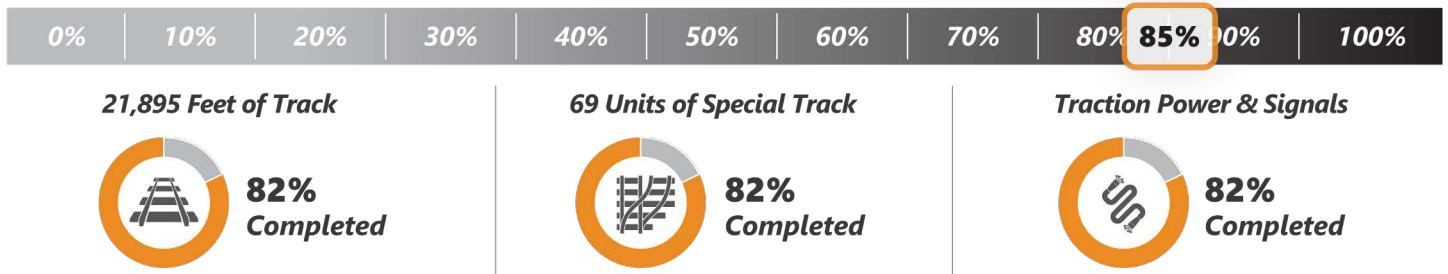

### Traction Power Substations

**Traction Power Substations:** Modernize the third rail power supply to reduce the risk of service disruptions; develop a power system capable of supporting additional Orange Line service

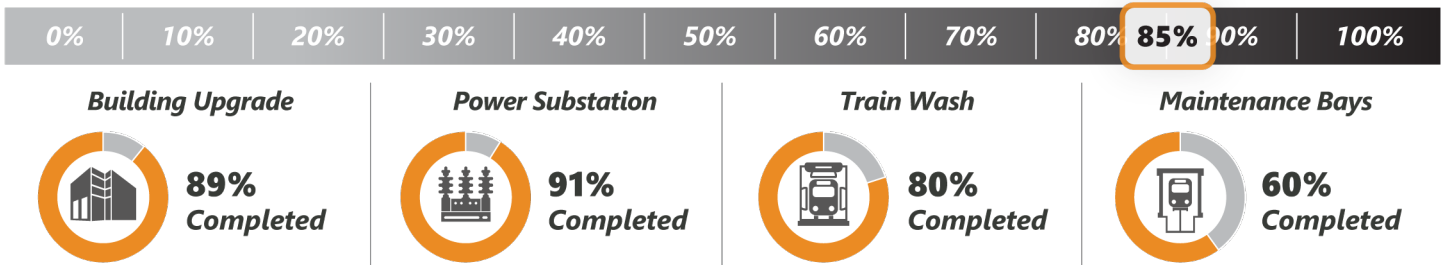

- ✓ **This Week** | Completed point-to-point testing of AC power system infrastructure at Oak Grove
- **Lookahead** | Begin point-to-point testing of DC power connection at Oak Grove. Continue investigating communications cable connection at Sullivan Square

# Wellington Yard and Maintenance Facility Updates

**Wellington Yard:** Upgrade Wellington Yard to increase service capacity, replace outdated infrastructure, and enhance safety.

- ✓ **This Week** | Conducted signal testing and began installation of ductbank in the North Yard
- **Lookahead** | Signal testing and finalizing the installation of ductbank in the North Yard. Continue track adjustments for tracks 36, 37, and 38. Begin installation of new wayside DC power light switch

**Wellington Maintenance Facility:** Modernize the Vehicle Maintenance Facility to improve vehicle maintenance; reducing customer wait times, provide cleaner cars, and deliver safer operations.

- ✓ **This Week** | Continued reconstruction of track 20
- **Lookahead** | Continue installation of anchors in track 20 that will support new rail
