MASSACHUSETTS BAY TRANSPORTATION AUTHORITY

FFY 2021 – 2023 TRIENNIAL DBE GOAL

I. Introduction

In accordance with Federal Regulation 49 CFR §26.45(f)(3), the Massachusetts Bay Transportation Authority (hereinafter referred to as “the Authority” or “the MBTA”) submits its three-year Disadvantaged Business Enterprise (DBE) overall goal for FFY 2021-2023 on projected contracting opportunities funded in whole or in part by the Federal Transit Administration (FTA) along with the methodology and supporting documentation for review.

II. Non-Discrimination Policy

The Massachusetts Bay Transportation Authority’s (“MBTA”) DBE Program will not use quotas in any way in the administration of its DBE Program. MBTA’s DBE Program will not be used to discriminate against any company or group of companies. MBTA will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by federal regulations codified at 49 CFR Part 26, on the basis of race, color, sex, or national origin.

In administering its DBE Program, MBTA will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing the accomplishment of the objectives of the DBE Program with respect to individuals of a particular race, color, sex, or national origin.

It is also MBTA Policy to:

1. Ensure nondiscrimination in the award and administration of USDOT assisted contracts;
2. Create a level playing field on which DBEs can compete fairly for USDOT assisted contracts;
3. Ensure that the MBTA DBE Program is narrowly tailored in accordance with applicable law;
4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. Help remove barriers to the participation of DBEs in USDOT assisted contracts;
6. Assist the development of firms that can compete successfully in the marketplace outside the DBE Program; and;
7. Promote the use of DBEs in all types of federally assisted contracts and procurement activities conducted by MBTA;

III. Public Participation Process

MBTA sent an invitation for the public meeting on August 12, 2020 to key stakeholders, organizations, associations, the UCP and SDO Directories and local businesses (full list in Exhibit A). MBTA published a notice on August 14, 2020 of a public meeting on August 21, 2020 on the MBTA website at www.MBTA.com/DBE. The invitation was published in print media on August 18, 2020 (invite in Exhibit B).

The MBTA Office of Diversity and Civil Rights (ODCR) hosted the Public Meeting on the proposed DBE Triennial goal on August 21, 2020 via GoToWebinar. The meeting included Americans with Disabilities Act (ADA) accommodations of on-screen American Sign Language (ASL) translators as well as on-screen text captions. Real-time translation of the meeting was available in Spanish and Mandarin on separate call-in numbers to meeting attendees. Two-Hundred and forty-four (244) business owners/stakeholders/interested parties registered to attend the Public Meeting. Participants were advised of the federal requirements, potential opportunities, proposed DBE goals for the FY 2021 – 2023. Additionally, MBTA encouraged feedback from all participants and solicited questions throughout the entire presentation and responded to questions during the “Q&A” section of the agenda.

MBTA consulted with minority, women's and general contractor groups, community organizations, and other trade and industry organizations/associations on the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and MBTA efforts to establish a level playing field for the participation of DBEs. The consultative process was conducted August 21, 2020 through September 25, 2020 and provided key information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and MBTA's efforts to establish a level playing field for the participation of DBEs. Additional information on the Public Meeting and Public Engagement process is provided in the attached Exhibit C.

IV. Overall Triennial DBE Goal

In accordance with USDOT regulation 49 CFR Part 26, the MBTA has established a goal of awarding twenty percent (20%) of the value of federally funded contracts to DBEs during FFYs 2021-2023 (exclusive of FTA funds to be used for the purchase of transit vehicles). Sixteen percent (16%) of the goal will be achieved through race conscious means and four percent (4%) through race neutral means. MBTA expects that DBEs and other small businesses will be awarded contracts and subcontracts valued at just over \$288 million.

The purpose of the DBE Program is to create a “level-playing field” for business enterprises that are minority-owned and operated by socially and economically disadvantaged individuals by encouraging their participation on federally funded contracts. Women and minorities are presumed to be socially and economically disadvantaged individuals, although this presumption may be rebutted.

A principal goal of the regulations is to generate increased opportunities for DBEs and potential DBEs to participate on federally funded projects while using narrowly tailored means to enhance

such opportunities that do not unduly burden non-DBEs. In order to achieve that goal, the regulations require recipients of federal funds to establish goals for DBE participation that accurately reflect the level of DBE participation that could be expected assuming a level playing field. This expected level of DBE participation is to be determined using a two-step process.

V. Methodology and Rationale

In order to achieve the goal, MBTA is required to establish goals for DBE participation that accurately reflect the level of DBE participation that could be expected, assuming a level playing field. Consistent with the requirements of 49 CFR Part 26, recipients of federal assistance should include a projection of the DBE participation anticipated during each fiscal year covered by the project goal. This expected level of DBE participation is to be determined using a two-step process: Step 1 determines the base figure for the relative availability of DBEs and once the base figure has been calculated, Step 2 requires MBTA to examine all available evidence in its jurisdiction to determine what adjustment, if any, is needed to the base figure in order to arrive at its overall goal.

VI. Step 1: Base Figure Calculation

a. Selection of the Local Market Area

As defined by the USDOT goal setting tips, the local market area is the area in which the substantial majority of the contractors and subcontractors with which MBTA does business are located, and the area in which MBTA spends the substantial majority of its contracting dollars. Since most of the firms doing business with MBTA are located within all or parts of the Commonwealth, the statistical area was selected as the Commonwealth of Massachusetts.

b. Identifying Contracting Opportunities

After identifying the MBTA market area, the next effort focused on identifying potential contracting opportunities. In addition to considering the anticipated contracting opportunities for the upcoming Triennial period, MBTA also reviewed contracting activities that occurred over the preceding Triennial timeframe. The purpose of this review was to identify both positive and negative activities that could be built upon and continued.

It was noted that the FTA funded portion of work will be substantially impacted during the Triennial Period (2021-2023) in dollar value in 2022 due to the substantial completion of the MBTA Green Line Extension Program (GLX). MBTA anticipates that FTA-funded contracts and subcontracts will result in awards valued at \$1,443,326,996. Of that amount, MBTA estimates that \$288,665,330 will be awarded to DBEs, in contracts and subcontracts.

The following Tables show the value of contracting opportunities, and the primary NAICS codes associated with those opportunities. Table #1 shows the projects to be undertaken with FTA funded support over the next three years. Table #2 shows the NAICS codes wherein the greatest level of contracting is likely to occur.

Table 1 FFY 2021 – 2023 FTA-Funded Projects

Federal Funding Program	2021	2022	2023	FFY21-23 Total (Federal)
5307	\$53,010,366	\$28,575,695	\$28,575,695	\$110,161,756
Signals/Systems Upgrade Program	\$48,000,000	\$27,136,607	\$27,136,607	\$102,273,214
Stations and Facilities Program	\$5,010,366	\$1,439,088	\$1,439,088	\$7,888,542
5337	\$157,047,726	\$142,588,304	\$145,158,209	\$444,794,240
Bridge & Tunnel Program	\$23,927,558	\$42,698,292	\$42,698,292	\$109,324,142
Signals/Systems Upgrade Program	\$71,888,842	\$38,220,226	\$38,220,226	\$148,329,295
Stations and Facilities Program	\$61,231,326	\$61,669,786	\$64,239,691	\$187,140,803
FY21-23 FTA Formula Funding	\$210,058,092	\$171,163,999	\$173,733,904	\$554,955,996

	237310	Highway, Street, and Bridge Construction
	332312	Fabricated Structure Metal Manufacturing
	238120	Structural Steel and Precast Concrete Contractors
	238190	Foundation, Structure, and Building Exterior Contractors
Signals & Systems	238110	Poured Concrete and Foundation Contractors
	238120	Structural Steel and Precast Concrete Contractors
	238910	Site Preparation Contractors
	238210	Electrical and Wiring Contractors
	541330	Engineering Services
	541512	Computer Systems Design
	541513	Computer Facilities Management

c. Identification of Ready, Willing and Able DBEs

Federal regulations codified at 49 CFR Part 26 states that the number of ready, willing and able DBEs may be calculated using any valid scientific approach, and suggest, as possible methods, using comparisons between DBE directories and census bureau data, comparisons between lists of DBE and non-DBE bidders, and the results of disparity studies. For the FFY 2021-2023 Triennial period, MBTA is utilizing “live” data, as represented by the current number of DBE firms certified to do business with the Commonwealth of Massachusetts and accounted for in the Massachusetts Unified Certification Program (UCP). Not all DBE firms are certified in a single area of expertise; many DBE firms work under multiple NAICS codes approved by the Massachusetts UCP. Therefore, the methodology for developing the goal included a raw count of all firms noted within the NAICS codes identified in Table #2 above. It should be noted that the Massachusetts UCP DBE Directory includes Massachusetts-based firms, as well as out-of-state firms that are certified

as a DBE in Massachusetts. The USDOT DBE Program is a nation-wide program. Therefore, it was presumed for this effort that if a DBE firm seeks certification with the Massachusetts UCP, it should be included in the calculation of ready, willing and able DBEs, notwithstanding that its principle place of business may be located outside of the Commonwealth of Massachusetts which is defined as the MBTA market area. Consistent with that approach, the base data for DBEs is the Massachusetts UCP Directory. The Massachusetts UCP Directory was utilized to identify ready, willing, and able DBE firms within MBTA's local market area. Table #4 shows the projected number of ready, willing, and able DBE firms operating within the NAICS codes anticipated to be solicited for contracting opportunities with MBTA for the FFY 2021 – 2023 Triennial period.

d. Identification of All Firms in the Commonwealth of Massachusetts Statistical Area (MBTA Market Area)

MBTA used the most recent available data to identify the total number of Massachusetts-based firms in each NAICS code-specific industry group. Specifically, MBTA relied upon the 2017 U.S. Census County Business Patterns data for the Commonwealth of Massachusetts. Table #3 shows the number of available firms in the Commonwealth of Massachusetts by the relevant NAICS codes.

Table 3 Examples of Relative Ability for DBEs for Key NAICS Codes

NAICS	NAICS Description	Certified DBEs	MA Industries as per US Census Bureau	Cert DBE only
541330	Engineering Services	123	1524	8%
541620	Environmental Consulting Services	63	283	22%
541370	Surveying and Mapping	20	148	14%
541512	Computer Systems Design	87	1158	8%
541611	Administrative Management	126	1677	8%
541320	Landscape Architectural Services	37	151	25%
541820	Public Relations Agencies	16	215	7%
541513	Computer Facilities Management	18	142	13%
238910	Site Preparation Contractors	72	1162	6%
238210	Electrical and Wiring Contractors	42	2419	2%
237310	Highway, Street, and Bridge Construction	30	220	14%
332312	Fabricated Structure Metal Manufacturing	8	35	23%
238120	Structural Steel and Precast Concrete Contractors	22	57	39%
238190	Foundation, Structure, and Building Exterior Contractors	14	101	14%
238110	Poured Concrete and Foundation Contractors	32	298	11%

e. Weighting of Relative Availability

After identifying the available work, assigning NAICS codes to each area of opportunity, identifying ready, willing and able DBEs in the MBTA market area, and obtaining the total number of firms in the Commonwealth of Massachusetts from the Census County Business Patterns data for each NAICS code, MBTA conducted a weighted calculation of the opportunities. Table #3 and Table #4 document calculations made by MBTA. The relative availability figure, shown in the last column in Table #3, is a representation (percentage) of the number of DBEs that MBTA anticipates will be able to respond to an opportunity to participate on a contract, based on the total of number of firms in that NAICS code. The weighted base figure, shown in the final row of the final column of Table #4, represents the level of participation of DBE firms, by project, based on the anticipated value of FTA-funded contract dollars.

Table 4 Step 1 Base Figure Calculation with Weighting by Projected 2021-23 Spending

Federal Funding Program	2021	2022	2023	FFY21-23 Total (Federal)	Step 1 Calculation	Weighting
5307	\$53,010,366	\$28,575,695	\$28,575,695	\$110,161,756		
Signals/Systems Upgrade Program	\$48,000,000	\$27,136,607	\$27,136,607	\$102,273,214	12.22%	7.09%
Stations and Facilities Program	\$5,010,366	\$1,439,088	\$1,439,088	\$7,888,542	24.72%	0.55%
5337	\$157,047,726	\$142,588,304	\$145,158,209	\$444,794,240		
Bridge & Tunnel Program	\$23,927,558	\$42,698,292	\$42,698,292	\$109,324,142	17.34%	7.57%
Signals/Systems Upgrade Program	\$71,888,842	\$38,220,226	\$38,220,226	\$148,329,295	12.22%	10.28%
Stations and Facilities Program	\$61,231,326	\$61,669,786	\$64,239,691	\$187,140,803	24.72%	12.97%
FY21-23 FTA Formula Funding	\$210,058,092	\$171,163,999	\$173,733,904	\$554,955,996		
5309 - GLX	\$100,000,000	\$46,121,000	\$0	\$146,121,000		
Green Line Extension (Bridge & Station Work)	\$100,000,000	\$46,121,000	\$0	\$146,121,000	21.03%	10.12%
Other Federal	\$100,570,000	\$526,000,000	\$115,680,000	\$742,250,000		
PTC/ATC/Fiber - RRIF Financing (Signals/Systems)	\$100,570,000	\$526,000,000	\$115,680,000	\$742,250,000	12.22%	51.43%
FY21-23 Total Federal Funding	\$410,628,092	\$743,284,999	\$289,413,904	\$1,443,326,996	Weighted Average:	15.19%

Final Base Figure Calculation

Pursuant to federal regulations codified at 49 CFR Part 26, calculating the base figure entails dividing the number of DBEs ready, willing and able to perform work in a particular industry, in the designated market area, by the total number of firms ready, willing and able to perform work in that industry, for that specified region. MBTA determined the weighted Base Figure by multiplying the estimated weight or percentage of spend in a specific NAICS code by actual DBE availability. Utilizing this methodology, MBTA determined that the weighted Base Figure is 15.19%.

VII. Step 2: Adjustment to the Base Figure

The base figure itself is merely an approximation of the general availability of DBEs and potential DBEs. Federal regulations codified at 49 CFR Part 26 allows MBTA to adjust the base figure to refine, and better reflect the actual availability of DBEs and prospective DBEs that are ready, willing, and able to perform work on FTA-funded contracts made available through MBTA. Under USDOT regulations, while an adjustment is not mandated, MBTA can consider all evidence available to determine whether such an adjustment is warranted. In order to determine whether such an adjustment is appropriate, MBTA considered several relevant factors. The adjustments to the Base Figure included consideration of the following:

- Consideration of the number of prospective DBE firms in the MBTA Market Area based on certified minority and women business enterprises (MWBES) in the Massachusetts Supplier Diversity Office (SDO)
- Absence of recent Disparity Study Findings for the Commonwealth of Massachusetts
- Consideration of the percentage of DBE firms among recent bidders on construction and professional service firms on contracts for the State of Massachusetts Department of Transportation
- Accounting for any additional factors

a. Consideration of the number of prospective DBE Firms in the MBTA Market Area

As mentioned in Section VI a. above – Step 1: Base Figure Calculation, the Market Area defined for MBTA has been defined as the Commonwealth of Massachusetts. In order to incorporate the presence of MWBEs that are likely to be eligible for certification into the DBE Program, MBTA took into consideration the numbers of MWBE companies certified in the Massachusetts SDO. This calculation can only serve to help MBTA assess whether there is the possibility that firms that are eligible to be certified as DBEs, and are currently not certified as DBES, are in the relevant market area. MBTA took into consideration the number of MWSBE firms that are certifiable as DBEs, but that are not currently certified by the Massachusetts UCP. These firms should therefore be considered in the MBTA goal development methodology.

b. Consideration of Disparity Study Findings for the Commonwealth of Massachusetts

Federal regulations codified at 49 CFR Part 26 recommends referencing disparity studies when calculating a recipient's goal and developing a goal methodology. MBTA does not have a recent disparity study in or for the Massachusetts area.

c. Consideration of recent bidders to MBTA construction and professional services contracts

MBTA does not currently maintain a comprehensive bidder's list. Accordingly, MBTA elected not to use this data as part of the Step Two adjustment process.

d. Adjustment to DBE Goal - Accounting for Additional Factors

In summary, the Step One Assessment resulted in a spending-weighted target of **15%** of upcoming contracting activity that might be reasonably established for DBE participation. The goal was weighted by the expected spending by NAICS code. Additional factors are then taken into consideration, including prospective DBEs in the MBTA Market Area that are currently certified MWBEs in the Massachusetts SDO. Table 5 shows the prospective DBEs from the SDO added to the numerator. The new weighted average with the MWBEs added to the numerator is **17%**.

Table 5 Step 2 Goal with Prospective DBEs Added

Federal Funding Program	2021	2022	2023	FFY21-23 Total (Federal)	DBEs & Prospective DBEs Incl.	Weighting by Spend
5307	\$53,010,366	\$28,575,695	\$28,575,695	\$110,161,756		
Signals/Systems Upgrade Program	\$48,000,000	\$27,136,607	\$27,136,607	\$102,273,214	13.86%	7.09%
Stations and Facilities Program	\$5,010,366	\$1,439,088	\$1,439,088	\$7,888,542	29.51%	0.55%
5337	\$157,047,726	\$142,588,304	\$145,158,209	\$444,794,240		
Bridge & Tunnel Program	\$23,927,558	\$42,698,292	\$42,698,292	\$109,324,142	18.52%	7.57%
Signals/Systems Upgrade Program	\$71,888,842	\$38,220,226	\$38,220,226	\$148,329,295	13.86%	10.28%
Stations and Facilities Program	\$61,231,326	\$61,669,786	\$64,239,691	\$187,140,803	29.51%	12.97%
FY21-23 FTA Formula Funding	\$210,058,092	\$171,163,999	\$173,733,904	\$554,955,996		
5309 - GLX	\$100,000,000	\$46,121,000	\$0	\$146,121,000		
Green Line Extension (Bridge & Station Work)	\$100,000,000	\$46,121,000	\$0	\$146,121,000	24.01%	10.12%
Other Federal	\$100,570,000	\$526,000,000	\$115,680,000	\$742,250,000		
PTC/ATC/Fiber - RRIF Financing (Signals/Systems)	\$100,570,000	\$526,000,000	\$115,680,000	\$742,250,000	13.86%	51.43%
FY21-23 Total Federal Funding	\$410,628,092	\$743,284,999	\$289,413,904	\$1,443,326,996	Weighted Average	17.36%

MBTA's most recent established Triennial Goal was 24% for FFY 2020. The past year of participation for the MBTA was 22%. When averaged with the 17% step 2 figure, the resulting average was 20%. Accordingly, **MBTA's established goal for the FFY 2021 – 2023 Triennial period will be 20%. This is consistent with MBTA's past performance 22% race conscious participation, substantial completion of the GLX program, and the size of the current projects projected for the present triennial period compared to the previous triennial period's projects.** MBTA contends that this goal will be substantive enough to encourage the utilization of available DBE firms that currently seek to do business with MBTA, as well as aggressive enough to invite non-certified MWBEs to enter the Massachusetts UCP as a means for growing their companies.

VIII. Impact of Key Stakeholder and DBE Feedback

During the public comment period, MBTA received feedback during the public meeting, as well as directly by email and phone from key stakeholders and DBEs. Key themes in the feedback (goal-related feedback in Exhibit H) include the availability of contracting opportunities, availability of DBE's, previous triennial goals, and previous/current DBE participation. All feedback was reviewed and considered in developing the final goal. It should be noted that the available bidder's lists were considered but not used for the goal calculation as they are currently limited to final awardees and need to be expanded to include all bidders. Further, concerns about the increase in the goal do not recognize the fact that, as of December 2019, the current goal is 24%, not the original 10.98% proposed goal for FFY 2018-2020.

IX. Estimated Race-Neutral and Race-Conscious Participation

Under USDOT regulations, MBTA must meet the DBE participation goal using narrowly tailored activities that do not unduly burden non-DBEs. To fulfill this obligation, MBTA is required to achieve the DBE participation goal to the greatest extent possible through the use of race-neutral means. Race-conscious means may be used only to the extent needed to meet whatever portion of the DBE participation goal cannot be met through race-neutral means.

The race-neutral components of the MBTA DBE Program reflect efforts to reach out and assist companies in ways that are available to all businesses, including minority and women-owned businesses, in the MBTA service area. Race-neutral efforts include:

- An effective/aggressive outreach program targeted at small businesses, including DBE firms;
- Coordinated technical and financial assistance programs;
- Monitoring mechanisms to collect program evaluation data;
- Accounting for DBE participation obtained through subcontracting on prime contracts without DBE goals; and
- Awards of prime contracts to DBEs.

Based on the proportion of the historical race conscious vs. race neutral, the goal for the upcoming Triennial period will be assigned as follows:

- Race conscious participation – 16%

- Race neutral participation – 4%

Public Meeting about MBTA's Proposed Overall DBE Goal for Federal Fiscal Years 2021-2023

Who: Julian T. Tynes, Esq., Assistant Secretary, MassDOT/MBTA Office of Diversity and Civil Rights, DBE Liaison Officer

When: Friday, August 21, 2020, 10:00 AM – 12:00 PM

Where: GoToWebinar (registration link below)

Join the MBTA to review the Overall Triennial DBE Goal Setting Rationale and Methodology for federal fiscal years 2021-2023.

You will also hear about upcoming MBTA contract opportunities (professional services, construction, materials, consulting) and the impact of COVID-19.

During the meeting, attendees will have the opportunity to ask questions and provide comments.

REGISTER TODAY.

<https://attendee.gotowebinar.com/register/6810733872108933903>

Note: This meeting is accessible to people with disabilities. MassDOT provides reasonable accommodations and/or language assistance free of charge upon request (e.g. interpreters in American Sign Language and languages other than English, live captioning, videos, assistive listening devices and alternate material formats), as available. For accommodation or language assistance, please contact MassDOT's Chief Diversity & Civil Rights Officer by phone at (857) 368-8580, TTD/TTY at (857) 266-0603, fax (857) 368-0602 or by email to MASSDOT.CivilRights@dot.state.ma.us. Requests should be made as soon as possible prior to the meeting, and for more difficult to arrange services including sign-language, CART or language translation or interpretation, requests should be made at least ten business days before the meeting.

Wed 8/12/2020 10:11 AM

Umland, Wystan

Exhibit B

**Public Meeting Invite
Print and Social Media**

The Green Line Extension project utilizes a number of DBE firms to get the work done.

MBTA Disadvantaged Business Enterprise (DBE) Triennial Goal Methodology Review

DATE:

Friday, August 21, 2020
from 10:00 a.m. to 12:00 p.m.

LOCATION:

Virtual Public Meeting

REGISTER:

www.mbta.com/DBEmeeting

Join the MBTA to review the Overall Triennial DBE Goal Setting Rationale and Methodology for federal fiscal years 2021-2023.

You will also hear about upcoming MBTA contract opportunities (professional services, construction, materials, consulting) and the impact of COVID-19.

During the meeting, attendees will have the opportunity to ask questions and provide comments.

To learn more and sign up for the meeting visit:

Go-to-Webinar Housekeeping

Open and close your control panel using the white right-facing arrow as show in the picture on this slide

Join audio:

- Choose **Mic & Speakers** to use your computer audio.
- Choose **Telephone** and dial using the information provided.
- If you would like to view and follow the live captions for this meeting, please go to:
<https://www.streamtext.net/player?event=0821.MBTA>
- In order to listen to the Spanish audio translations, please call in to this phone number: +1 (872) 240-3212
Access Code: 841-323-797
- In order to listen to the Mandarin audio translations, please call in to this phone number: +1 (408) 650-3123
Access Code: 563-590-149
- The ASL interpreter should be visible on webcam. Attendees can increase the size of the interpreter's webcam if needed by clicking in the bottom corner of the webcam to expand the view.

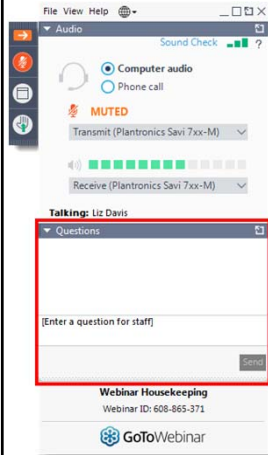

All participants are automatically muted

2

Go-to-Webinar Housekeeping-Questions

Please submit your questions and comments using the Questions panel

- During the Question and Answer periods of the meeting, attendees will be able to ask questions by either typing them into the Questions tab of the GoToWebinar control panel, or you can use the “raise hand” function in GoToWebinar in order to indicate you would like to make a comment or question verbally.
- To raise your hand in GoToWebinar, click the Hand icon in the Control Panel. If you are connected by phone to the audio only, you can press *9 to “raise hand”.
- On the phone you can also press *1 to play the features menu, and *2 to mute or unmute your audio.
- If you're unable to make a comment or question by phone or gotowebinar, or having any technical issues, you can provide written comments any time to dbem@mbta.com.

Note: Today's presentation is being recorded

3

AGENDA

Triennial Goal Setting

- **Disadvantaged Business Enterprise (DBE) Program**
 - Background
 - Highlights
 - Objectives
 - Program Requirements
 - Goal Setting Methodology and Rationale
 - Proposed DBE Triennial Goal
- **Questions & Comments**

4

BACKGROUND

- As a recipient of federal funds, Massachusetts Bay Transportation Authority (MBTA) is required to have a DBE program for its federally-funded projects
- The DBE Program only applies to federally-funded projects

DBE Program Highlights

- Conforms with regulations of the U.S. Department of Transportation (DOT), 49 Code of Federal Regulations (CFR) Part 26
- Ensures the administration, monitoring and implementation requirements set forth in 49 CFR Part 26
- Utilizes a Triennial (3-year) DBE goal to achieve DBE participation for federally-funded projects

DBE Program Objectives

- Create “level playing field” for expected DBE participation
- Goals must be clearly tied to and narrowly tailored to local market
- Recipients can use contract-specific goals based on identified opportunities and DBE availability to meet the Triennial goal
- Quotas or set-asides are not allowed based on race/gender

DBE Program Objectives (cont'd)

- The Triennial DBE Goal will be established for MBTA for federally funded projects for federal fiscal years (FFY) 2021 - 2023
- The DBE Program reporting period corresponds with the FFY (October 1 – September 30)
- A narrowly tailored contract-specific goal setting process will be used on a contract-by-contract basis

Required Publication of Triennial Goal

- Notice placed on MBTA Website: **August 21, 2020**
- Notification to Public (through local organizations and media): **August 21, 2020**
- 35-day Review and Comment Period
 - **August 21, 2020 to September 24, 2020**
- **October 1st** deadline for submitting DBE goal

Triennial DBE Goal Setting Methodology

Establishing Triennial DBE Goal

Projection of federal funds:

- Identify broad categories of contracting opportunities for the upcoming 3-year period (2021-2023) excluding transit vehicle procurements (TVM)
 - Signals/Systems Upgrades
 - Stations & Facilities
 - Bridges & Tunnels
- Identify ready, willing and available DBEs, potential DBEs, and non-DBEs in the Commonwealth of Massachusetts

Establishing Triennial DBE Goal Step One

- **Step One:** Base Figure
 - Calculate relative availability of DBEs - establishing the “Base Figure”
 - MBTA utilized the Massachusetts Unified Certification Program (UCP) Directory divided by the United States (U.S.) Census data for Massachusetts firms

Base Figure Availability = 15.15%

Establishing Triennial DBE Goal Step Two

Adjustments to the Base Figure

- **Step Two:** Further adjustments to the Base Figure

Adjust the base figure to account for other evidence including local market conditions and types of work on federally-funded projects:

- Adding the number of prospective DBEs in the Commonwealth of Massachusetts area, according to Supplier Diversity Office (SDO) increases the goal to 17.31%
- Substantial completion of the GLX program
- Anticipated projects for Federal Fiscal Years (FFY) 2021-2023
- Discussions with stakeholder including DBEs

Factors Considered

- Local market area for MBTA and availability of DBEs currently working.
- MWBEs capable of working who may not currently be certified as DBEs in Massachusetts as registered with the SDO.
- Historical data on past participation of DBEs on similar MBTA Projects (e.g. 22.06% past year).
- 2017 Massachusetts Business Census data shows up to 40% of the firms owned by women & minority groups.

Factors Considered (cont'd)

- The availability of ready, willing and able certified DBEs capable of participating by potential subcontracting elements;
- The scopes of work required to be performed during the upcoming Triennial period, including the budget;
- The realistic assessment of available DBE firms to participate in the subcontracted activity for the procurement by North American Industry Classification System (NAICS) code eligibility.

Total Actual DBE Participation

- The MBTA has demonstrated average past participation levels of 22.06% over the past year.
- In December 2019, the MBTA goal was adjusted to 24% for the current year.
- When past participation is averaged with the 17.31% base figure, the resulting goal is 20%.

Estimated Race/Gender-Neutral and Race/Gender-Conscious Participation

- Under USDOT regulations, MBTA must meet the DBE participation goal using narrowly tailored means that do not unduly burden non-DBEs.
- To fulfill this obligation, MBTA is required to achieve the DBE participation goal to the greatest extent possible through the use of race/gender-neutral means.
- Race/gender-conscious means may be used only to the extent needed to meet whatever portion of the DBE participation goal that cannot be met through race/gender-neutral means.

Triennial DBE Goal

In accordance with USDOT regulation 49 CFR Part 26, MBTA has established a goal of awarding 20% of the value of federally-funded contracts to DBEs during FFYs 2021-2023 (exclusive of FTA funds to be used for the purchase of transit vehicles).

16% of the goal will be race/gender-conscious, and 4% race/gender-neutral.

The total Federal assistance contracts for the FFY Triennial period 2021-2023 will be \$1,443,326,996.

MBTA expects that DBEs will be awarded contracts and subcontracts valued in excess of \$288,665,330.

Questions and comments on the Triennial DBE Goal can be submitted to dbe@mbta.com.

Public Meeting Notice

Service Change ONGOING

MBTA service levels have been increased in the interest of the health and safety of our riders and employees. All riders must use face coverings when on the MBTA. [MBTA.com/coronavirus](https://www.mbta.com/coronavirus)

[Home](#) > [Business](#) > Disadvantaged Business Enterprise (DBE) Program

Disadvantaged Business Enterprise (DBE) Program

The Disadvantaged Business Enterprise (DBE) Program promotes business opportunities for firms owned by minority, women, and other disadvantaged individuals that are certified as DBEs through the [Massachusetts Unified Certification Program \(MassUCP\)](#). The DBE Program is designed to promote a more diverse pool of bidders on MBTA contracts.

Couldn't make the public meeting?

On August 21, 2020, we held a [virtual public meeting](#) to discuss DBE goal setting for fiscal years 2021 – 2023, upcoming opportunities, and the impact of COVID-19.

[View the meeting presentation](#)

About the DBE Program

The MBTA's DBE Program was established in accordance with [49 Code of Federal Regulation Part 26](#) and is a requirement of the U.S. Department of Transportation (USDOT) as a condition of receiving federal assistance.

[Download the MBTA's DBE Policy Statement](#)

[See the MBTA's DBE goal for fiscal years 2021 – 2023](#)

How It Works

The development, implementation, monitoring, and enforcement of the DBE Program is managed by the Government Compliance Unit of the MBTA's Office of Diversity and Civil

Massachusetts Bay Transportation Authority
Public Notice of FFY 2021 - 2023
Triennial Disadvantaged Business Enterprise (DBE) Goal

In accordance with requirements of the U.S. Department of Transportation as set forth in 49 CFR Part 26, as amended, the Massachusetts Bay Transportation Authority (MBTA) in Boston, Massachusetts, hereby notifies the public that it is recommending the following Disadvantaged Business Enterprise (DBE) goal which represents the percentage of work to be accomplished by DBE prime contractors, subcontractors, consultants, vendors and material suppliers for professional services, construction and procurement contracts on federal-aid transit projects and grants during the Federal Fiscal Years of 2021-2023, beginning October 1, 2020 and ending September 30, 2023. The overall proposed DBE goal for FFY 2021-2023 is 20%. The DBE Goal Methodology and all information pertaining to this goal and a description of its selection is available at www.MBTA.com/DBE for 30 calendar days following the publication of this notice. Written comments of this goal will be accepted for 30 calendar days from the date of publication of this notice. The comments are for informational purposes only and may be sent to the MBTA Office of Diversity and Civil Rights (ODCR) at dbe@mbta.com.

Massachusetts Bay Transportation Authority (MBTA) will consider every request for reasonable accommodation to provide:

- Language interpretation for people with limited English proficiency (LEP), and
- Translations of written material necessary to access MBTA programs and information.
- Appropriate provisions will be considered when MBTA is notified at least 15 days prior to the date the written comments are due.

Exhibit H

**Questions/Comments on Goal
during Public Comment Period**

Can the background address outcome for last several Triennial Review?

Is the base number adjusted for decertifications? Those who have "graduated"?

What if, in the past, you were in noncompliance with the DBE regulations such that past levels of DBE participation present either an unfairly high or unfairly low picture of DBE capacity?

Last two triennial reviews (2015 and 2017) MBTA did not meet its DBE goal. What corrective actions have been taken?

Marvin Thomas - marvin.thomas@triunityeng.com

How does the project goal and dollar values compare to the prior three years?

What categories of work do the goals apply to? Just construction type of work?

Shannon Reilly - sreilly@cimass.org

Hello - Can you speak briefly to any new reporting requirements for DBEs due to this new goal, if any?

Brook Herren - Brook.Herren@JavelinSEC.com

--

There were two very large MBTA projects earlier this year and last year that did not have DBE goals and this is confusing to us as a DBE contractor. What would be the potential reason for this?

Example Middleboro South Coast Rail

2nd Example Fall River South Coast Rail

Sarah Parker - sparker@edmconstruction.net

Can you please go over again the race/gender conscious and race/gender neutral definitions

If under a professional services contract a good faith effort is executed to meet the DBE goal on a federally funded project, but a prime is unsuccessful, can M/WBE participation be counted towards meeting the DBE goal.

Mahmood Khwaja - khwajam@cdmsmith.com

what was the breakdown of rc and rn goals last 3 years?

are RWA list of NAICS available?

are # of firms only used or are dollar capability taken into consideration?

are the data and calculations available that went into proposed goals?

John Pourbaix - jpourbaix@cimass.org

Will you be setting a small business set aside goal?

How do you set goals for Keolis?

What is the representation for spend CRRC?

Doreen Blades - doreen@usecoproducts.com

Can you review how the gender and race conscious goals will be administered and then enforced ?

Kathy Campbell - kcampbell@cdwconsultants.com

With this triennial goal, will there be a closer look at "good faith efforts" and will there be greater penalties to general contractors for failing to meet the stated DBE goal on a given project?

Brett DeAndrade - bdeandrade@bravaelectric.com

--

I understand you're conveying the DBE set-aside goals now and may not have all the details at this time. Do you know when will we know which projects will have DBE set aside and how much? When will we also be able to know in which areas (NAICS codes categories) that funding will be applied in?

Are the MBTA projects only construction focused or will there be IT/Technology projects too?

Julian T. Tynes, Esq., Assistant Secretary
Office of Diversity and Civil Rights
MBTA
10 Park Plaza, Suite 5160
Boston, MA 02116

Dear Assistant Secretary Tynes,

On behalf of the members of Construction Industries of Massachusetts (CIM), a trade association representing the heavy and highway construction industry in Massachusetts, we respectfully submit the following comments on the MBTA's proposed triennial DBE goals for FFY 2021 – 2023

CIM recognizes that the DBE program is an important component of the federal, public construction program and we are supportive of its purposes and the intent behind it. We support a DBE program that is fair and equitable, that can be administered with consistency, and that, above all, promotes the prevalence and growth of DBEs in the transportation construction industry. In doing so, the goals must be narrowly tailored and established based upon the ready, willing, and able DBEs.

The previous triennial DBE goal (FFY 2018 - 2020) for the MBTA was 10.98%. We are concerned with the almost doubling of the goal for the upcoming triennial period. The federal assistance over FFY 2021 – 2023 is projected to be \$1.443 billion, which is an increase of about \$137 million from the figure used to set the prior triennial goal. In addition to the increase in federal spending, there is a significant increase in state funding for MBTA projects too. While the state-only funded projects do not contain DBE goals, they often do contain M/WBE goals, the work for which is primarily performed by the same pool of contractors/subcontractors as those undertaking the DBE work. We are concerned the D/M/WBEs will not be ready, willing and able to perform the significant increase of work resulting from the overall increased spending and the significant increase in the MBTA's DBE goals. Establishing goals that are too high will in fact prove to be detrimental to the very contractors and subcontractors the program

seeks to support by overwhelming their resources to meet their work demands efficiently and effectively.

We have heard repeatedly from DBE members of CIM urging caution about setting such goals too high, and they specifically are concerned about such a drastic proposed increase in the MBTA's triennial goal. Their concerns are justified based upon previous efforts in Massachusetts to significantly increase participation by D/M/WBEs. Mistakes were made during the Central Artery/Tunnel Project and the Boston Harbor Cleanup when the aggressive D/M/WBE goals set for those projects actually resulted in several successful D/M/WBEs going out of business because they lacked the capacity, credit lines and management tools to take on the increased workload. We are fearful the significantly increased goals being proposed by the MBTA will have the same fatal results for current D/M/WBEs.

We strongly believe it is imperative that the MBTA transparently demonstrate how it came to the conclusion to increase the DBE goal from the current 10.98% to the proposed 20%.

Many of the D/M/WBE contractors and subcontractors who perform work for the federal and state funded programs at the MBTA also undertake work for other public awarding authorities who also have D/M/WBE goals. The totality of this work and the availability of ready, willing, and able participants is important. It is vital that an analysis be undertaken and shared that identifies the type of work undertaken over the last three years, the projected type of work to be undertaken in the coming three years, and the comparable pool of capable and available DBE contractors/subcontractors in the trades that will be called upon. The MBTA's work and goals are not insulated from the impacts of other public work. We have not seen any analysis that considers this and we strongly urge the MBTA to do so. With the absence of a comprehensive disparity study, it is difficult to truly identify the availability of D/M/WBEs to perform MBTA work. In addition, the MBTA has not undertaken the same methodology as MassDOT's Highway Division in setting its goals. Consequently, it is difficult to compare and analyze the true availability of ready, willing and able DBEs.

We respectfully ask the MBTA to undertake, and share, a comprehensive goal setting methodology consistent with that undertaken by MassDOT's Highway Division (which can be found here: <https://www.mass.gov/doc/dbe-goal-for-fhwa-assisted-contracts-fy2020-fy2022/download>). Their step-by-step methodology walks through each step taken to establish its triennial goal of 13.6% for FFY 2020 – 2022. They utilize the bidders list to determine their base figure, and identify the actual number of firms from Massachusetts, the specific number of DBE firms that sought federally-assisted contracts/subcontracts, the specific number of total firms, the number of certified M/WBEs and calculated the number of those that were also DBEs, and determined if any firms were decertified. Based on the Highway Division's information and

calculations, they determined the relative availability of DBE's in construction to be 10.6%. They undertook a similar process for A & E contracts and determined the relative availability of A & E DBE consultants to be 27.3%. They then weighted the projected values of federally assisted awards and set the weighted value of each. The Highway Division then undertook step two to determine if any adjustments should be made. They looked at the previous five federal fiscal years for total DBE participation. Through this review, the goal was adjusted to 13.6%.

The process and details provided by the Highway Division were clear and easy to understand, were based on easily identifiable and specific agency data. We respectfully ask the MBTA to undertake a similar process and to present the data and methodology in a similar manner. Consistent approaches in setting the respective DBE goals of the Highway Division and the MBTA provides stakeholders with a greater ability to understand the process and the numbers behind the set goals. This will ultimately help ensure the goals that are set in fact help support the very DBEs the program is intended to assist, encourage, and promote.

As the MBTA works to finalize the DBE goals for FFY 2021 – 2023, we ask the MBTA to continue efforts to support DBEs and M/WBEs in areas including financing, bonding, insurance, human resources, record keeping, and submittals. We hear often from our DBE members that working for the MBTA is challenging, and in fact numbers of subcontractors will not undertake MBTA work.

Again, we appreciate the opportunity to submit these comments and are hopeful our concerns are heeded as the MBTA finalizes the triennial goal for FFY 2021 - 2023. We are available to discuss our comments, and we offer our assistance to ensure the intent of the program is realized.

Sincerely,

A handwritten signature in blue ink, appearing to read "John M. Pourbaix, Jr.", with a stylized flourish at the end.

John M. Pourbaix, Jr.
Executive Director
