</table>

- **This Week** | Work on concrete repairs at Tufts Curve was paused this week. As a result of the new rail fasteners and other work that has been completed, the speed restrictions in the area have been removed
- **Lookahead** | Concrete repairs at Tufts Curve will be completed next week, and only minor punch list items will remain

*Schedule subject to change with weather conditions and in accordance with public health directives
Project percentages represent the value of the installed work
**Wellington Yard and Maintenance Facility Updates**

**Wellington Yard:** Upgrade Wellington Yard to increase service capacity, replace outdated infrastructure, and enhance safety

- **This Week** | Crews continued with punch list work and general clean-up of the yard. Light pole erection (originally scheduled for June 3) has been rescheduled for July 8
- **Lookahead** | Crews will continue working on punch list items and clean-up

**Wellington Maintenance Facility:** Modernize the Vehicle Maintenance Facility to improve vehicle maintenance, reduce downtime and customer wait times, provide cleaner trains, and deliver safer operations

- **This Week** | Crews installed anchors and prepared for grouting work at track 19
- **Lookahead** | Crews will continue working on track 19

---

*Schedule subject to change with weather conditions and in accordance with public health directives. Project percentages represent the value of the installed work.*
Traction Power Substations

Traction Power Substations: Modernize the third rail power supply to reduce the risk of service disruptions; develop a power system capable of supporting additional Orange Line service

✓ This Week | At Oak Grove, crews installed bus duct connections to the transformer
• Lookahead | Crews will continue performing cable connections and testing on the new equipment
