

Green Line Transformation

A Capital Transformation Program

Green Line Transformation Program Update, Friday, November 10

Under the [Green Line Transformation](#) (GLT) program, the [Symphony Station Accessibility Improvements](#) advances with continued progress on utility relocation. Continue reading for more information. We'd like to sincerely thank veterans for their service and wish them all the best this Veterans' Day.

Work continues on the steam pipe adjacent to Symphony Hall

GLT Improvements Continue Across the Green Line

- **Symphony Station Accessibility Improvements**

At [Symphony Station](#), utility relocation work is ongoing in advance of station improvements. Excavation of a 10" steam line is ongoing near Symphony Hall. Crews also re-insulated a section of the steam line and are digging test pits to facilitate upcoming work. This utility relocation work is a necessary step before accessibility improvements can be made at the station. More details can be found on the [project website](#).

To report a construction-related issue on the Symphony Station project, call the hotline at [857-202-0831](tel:857-202-0831). It will be answered during construction hours Monday-Friday (except holidays). All voicemails left outside of construction hours will be addressed on the following weekday shift.

Please note the schedule for these major infrastructure projects is dependent on weather and subject to change without notice.
