# Heat Related Death Statistics

In 2023, the United States saw a record number of heat-related deaths, with more than 2,300 deaths attributable to excessive heat, according to the Journal of the American Medical Association.

This represents a significant increase of 117% since 1999, when there were 1,063 heat related deaths.

According to the Massachusetts Department of Health, in 2023, there were 2 heat-related deaths in the Commonwealth.

# Practice Heat Safety Wherever You Are

## **Job Sites**

Stay hydrated and take breaks in the shade as often as possible.

## **Indoors**

Check up on the elderly, sick and those without AC.

## **Vehicles**

Never leave kids or pets unattended- LOOK before you LOCK.

## **Outdoors**

Limit strenuous outdoor activities, find shade, and stay hydrated.
