

# Commuter Rail FMCB Monthly Update

March 6  
2017

**David Scorey**

# Coaches In Service

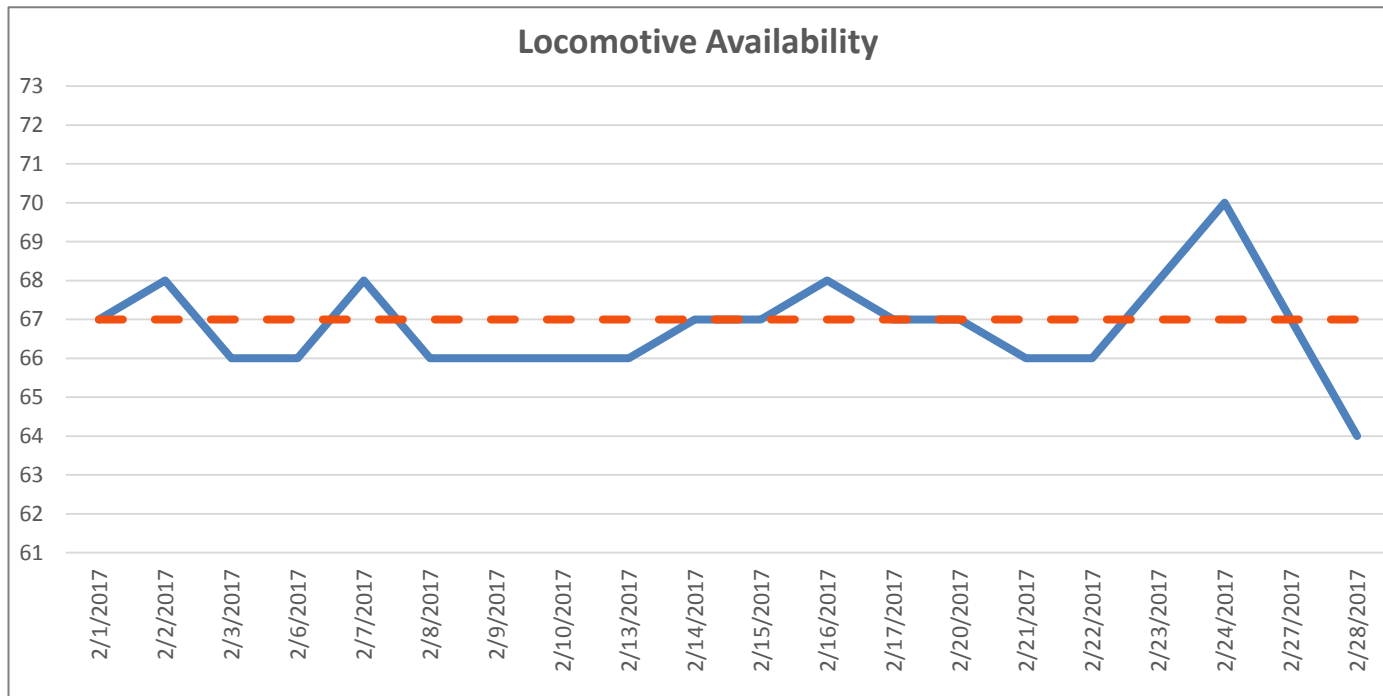

## Coaches in service

- ⦿ Comments on coaches in service (CIS);
  - New target of 365 CIS in place (was 359 until December 2016)
  - Highest level of coach availability ever delivered through Patriot's Parade
  - Planned reduction back toward to target threshold in the following weeks
  - High number of 'cuts' 22/23 February temporarily dropped CIS below target, but recovered quickly, high confidence of continued strength in this area

# Locomotive Availability

## Locomotive availability at 6 am each day

### ⦿ Comments on locomotive availability

- Average availability improving, but still some challenges
- Planned Maintenance and routine repairs well controlled and production delivery improving
- Working to resolve legacy fleet engine failures and MPI turbocharger problems
- UTEX program progressing ahead of schedule – first 2 locos well advanced

# Train Cancellations

99.83% of trains operated in the last four weeks - 18 of 10682 canceled
