

# AFC 2.0

## Update to the Fiscal & Management Control Board

*David Sikorski, AFC 2.0 Program Manager*

*Laurel Paget-Seekins, Asst. General Manager for Policy*

May 13, 2019

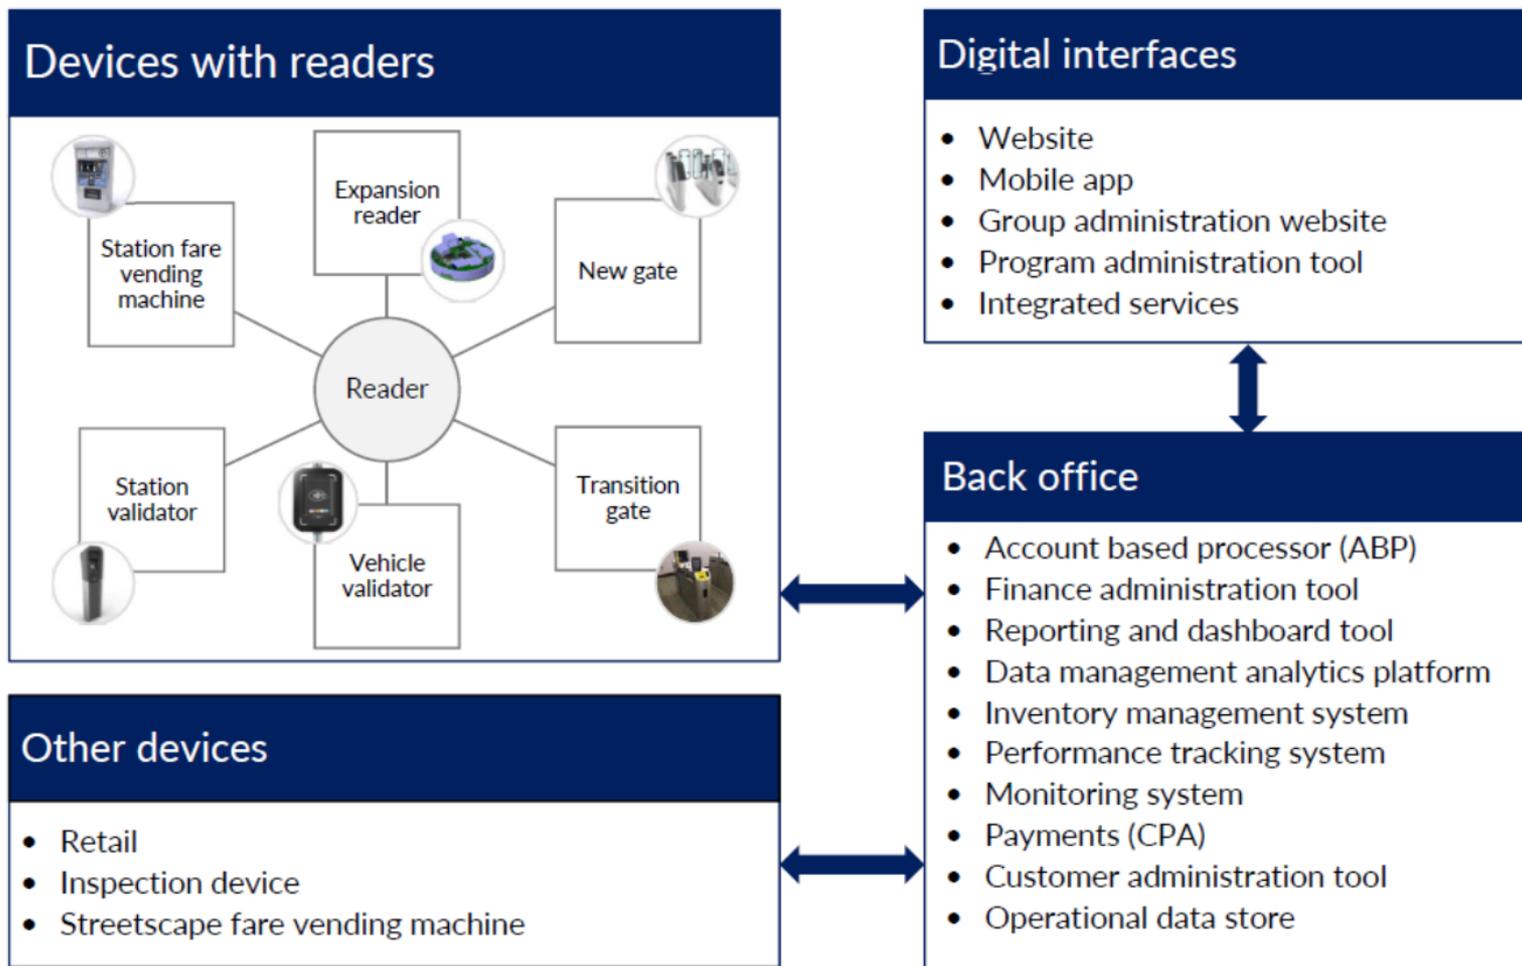

# Today's AFC 2.0 Update

---

- **Challenges**
  - Complex Technology, Pilot Changes, System Connectivity, and Fare Engine
- **Highlights**
  - Payment Technology, On-Board Equipment Placement, Tours, Website, and Streetscape Fare Vending Machine
- **Transition Planning**
  - Recruitment for transition team
- **Policy Updates**

# Key Challenges

- Complex Systemwide Technology
  - Project is more than just new fare gates – many parallel work streams across technical disciplines

# Key Challenges

- **Pilot Changes**

- Investigating change in Pilot make-up to help reduce schedule risk on the project
- More piloting on bus routes as opposed to light rail

- **System Connectivity**

- Mobile network communication challenge
- Cubic developing workarounds

- **Fare Engine**

- MBTA has a complex fare structure with multiple modes and transfer scenarios that need to align with near real-time account balance information
- Some are proving complex for Cubic to model within current system capabilities
- Meeting weekly with Cubic on the scenarios

# Highlights

---

- **Team: Payment Technology and Fare Revenue Assurance**
  - Consultant on-board
  - Conducting reviews of the designs for mobile app, payment processing, risk management, and readers
- **Fit Checks (of on-board equipment placement)**
  - Successful 'fit checks'
  - Two bus types and two Green Line vehicle types were used
  - Next round of checks this week
- **Stakeholder Tours**
  - Meetings held at the Model Office in April
  - Model Office and system progress design well received

# Highlights

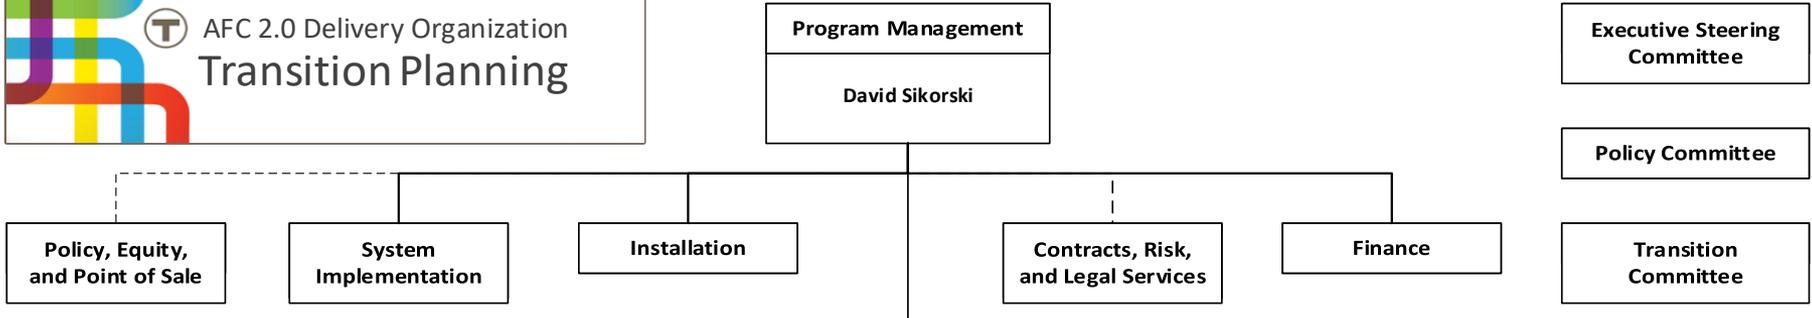

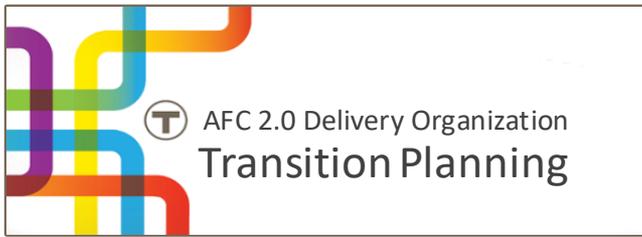

- New prototype for Streetscape Fare Vending Machine has arrived in the Model Office for continued testing
- Website Development progressing well

The screenshot shows the user interface for the Charlie account. At the top, there is a navigation bar with the MBTA logo, the name 'Charlie', and user information 'Shawn Rosalia' and 'EN'. Below this is a sidebar with menu items: 'Work Travel...2345', 'Overview', 'Charlie Card Settings', 'Ride History', 'Purchase History', and 'Connected Services'. The main content area is titled 'Overview' and displays the following information:

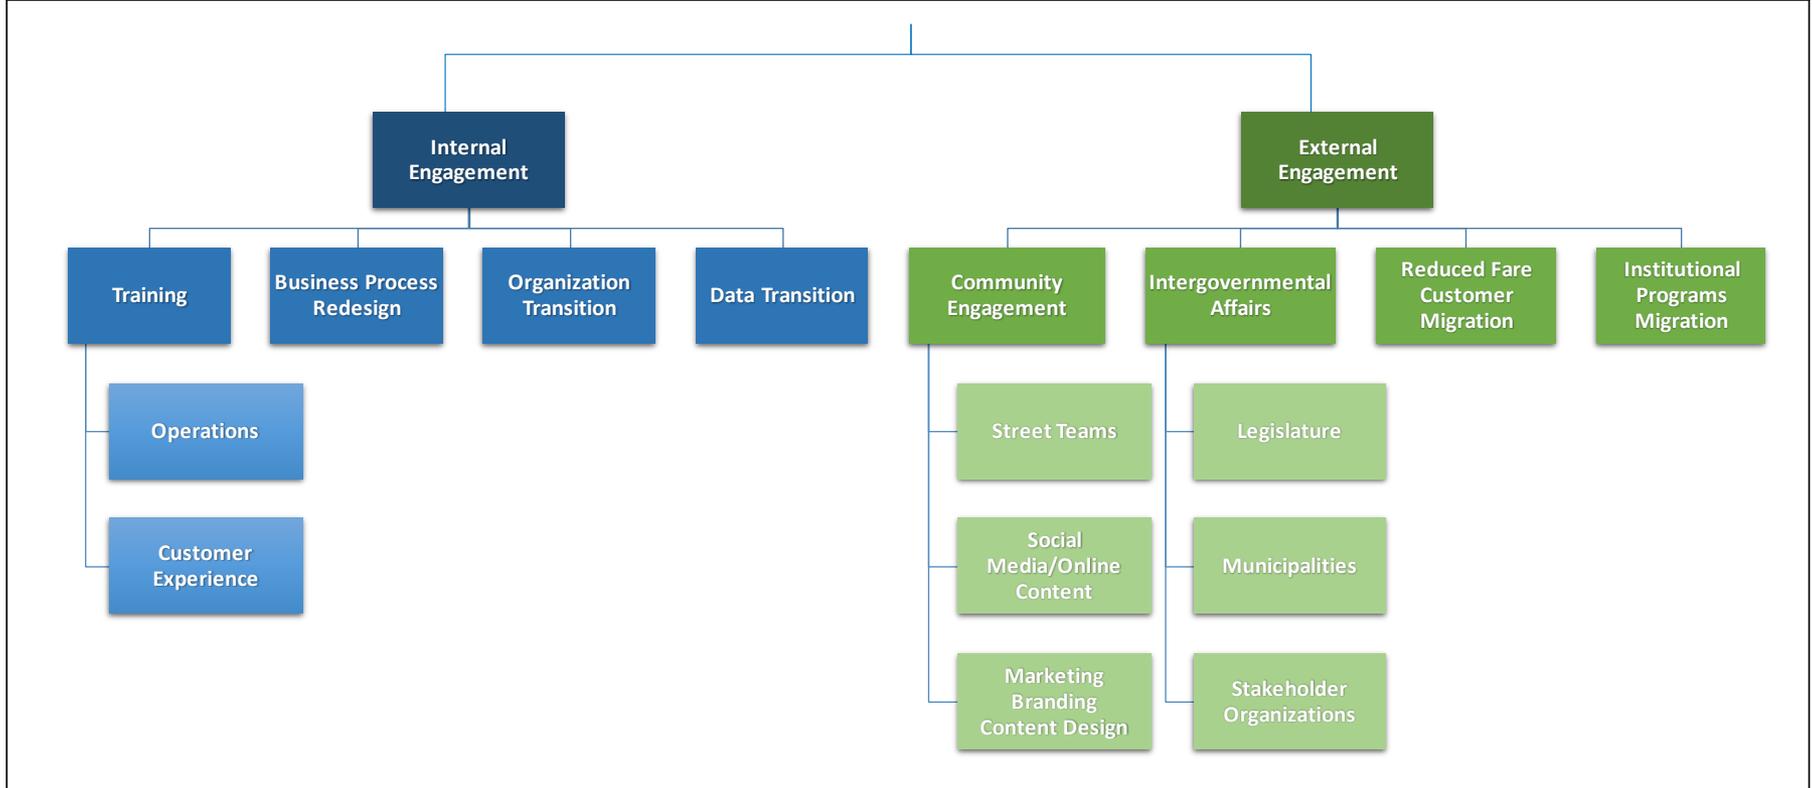

- Balance:** \$37.50
- Transit Value:** \$0.00
- Refundable Transit Value:** \$7.50
- Pre-Tax Transit Value:** \$30.00
- Status:** Active
- Expires:** Jun. 6, 2020
- Enablement Fee:** Paid: \$5.00

A 'Reload Your Balance' button is prominently displayed. Below the balance information, there is a section for 'Autoloads with VISA ... 0441 when balance drops below \$10' with a 'Manage' link. The 'Monthly LinkPass' section shows it is valid through Oct. 31, available for Commuter Rail, Bus, and Trolley, and provided by Lunar Industries. The 'Commuter Rail Pass' section shows it is valid through Oct. 15, available for Commuter Rail, with a 'Reload Pass' button. At the bottom, there is a 'Set Up Autoload' link and another 'Manage' link.

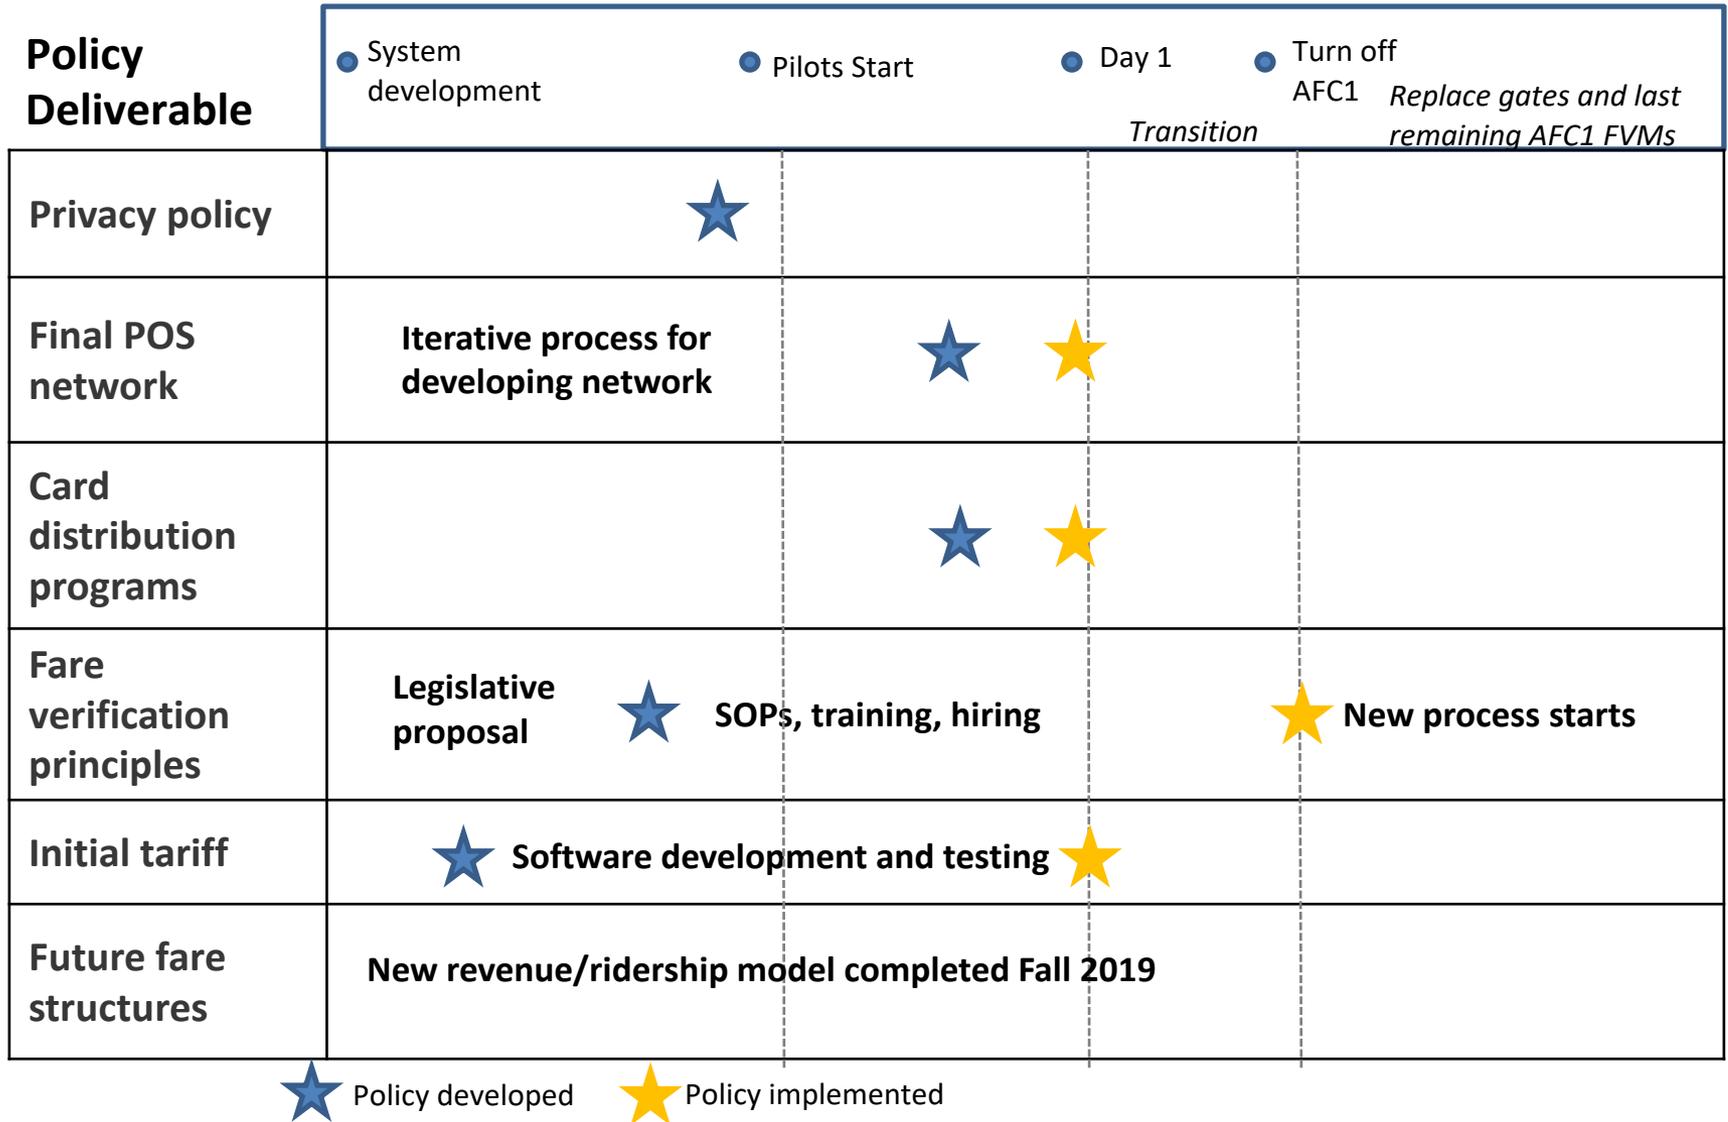

**Customer & Employee Transition**  
(coordination with Customer Experience)

# POLICY UPDATE

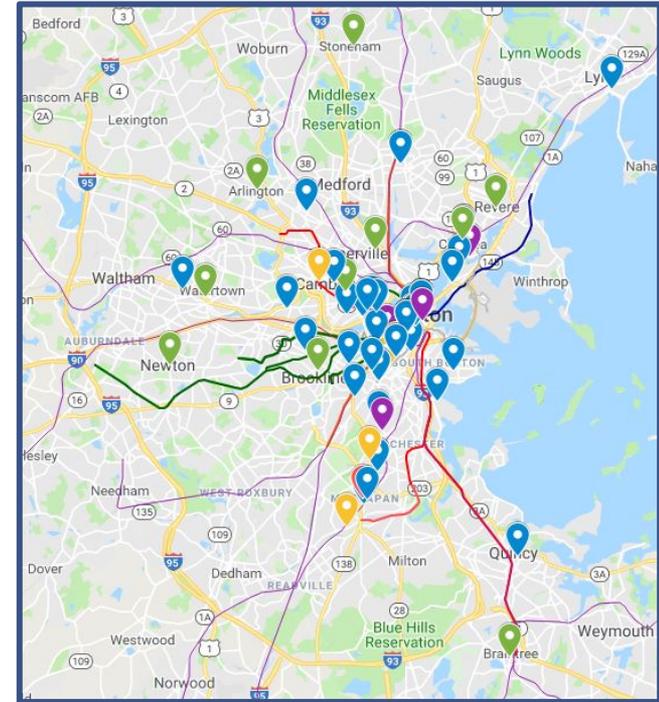

# AFC 2.0 Policy Timeline

# Outreach Update

AFC 2.0 OUTREACH TEAM CONTINUES TO GATHER INPUT ON POINT OF SALE NETWORK AND OTHER AFC 2.0 POLICY DECISIONS

- New website where customers can get more information and learn how to Get Involved ([www.mbta.com/afc2](http://www.mbta.com/afc2))
- Recent Events
  - MBTA community meetings (x7)
  - Municipal partner workshops on POS locations (x10)
  - Community meetings and focus groups (x15)
- Upcoming Events
  - Street teams at bus stops to gather qualitative data regarding onboard cash use
  - Remaining municipal partner workshops on POS
  - Policy Development Working Group Meeting
  - Launch of fare verification outreach
  - Ongoing community meetings

Outreach Events as of 5/13/2019

# Implementing Foundational Policies

AFC2 TEAM WORKING TO IMPLEMENT FOUNDATIONAL POLICIES THAT WERE APPROVED BY THE BOARD IN 2016 AND BUILT INTO PROCUREMENT AND DESIGN OF AFC 2.0

## Key AFC 2.0 Project Objectives

Faster  
Service

Improved  
Customer  
Experience

Fare Collection

## Foundational AFC 2.0 Policies to support objectives

No Cash On Board  
&  
“One More Trip”  
(Negative Balances)

All Door Boarding  
(Bus and Light Rail)

Integrate Commuter Rail  
Payment and Validation

Proof of Payment  
&  
No Passback

Charge for Fare Cards and  
Expand Card Availability

# Principles of MBTA Fare Structure

---

THESE ARE THE EXISTING PRINCIPLES OF MBTA FARE POLICY THE TEAM IS ASSUMING WILL STILL HOLD UNDER AFC 2.0 INITIALLY

- **Pass Validity:** The services covered by any specific pass include all services covered by lower-price passes
- **Pass Mode Coverage:** Passes provide free travel on certain modes and no discount or credit on all other modes (e.g. Local Bus Pass provides no discount on subway)
- **Pass Zone “Extension”:** When riding on zoned services (Commuter Rail) with a pass, only pay the fare for additional zones not covered by the pass
- **Transfer Pricing:** Where transfers are recognized/allowed, the total fare for the journey is the fare for the most expensive ride in the journey
- **Transfer Eligibility:** Applicable transfers are provided, except when a sequence of rides is expected to constitute multiple *journeys*

*These rules don't consistently apply currently; one goal of AFC 2.0 is to create consistent fare rules across all MBTA modes.*

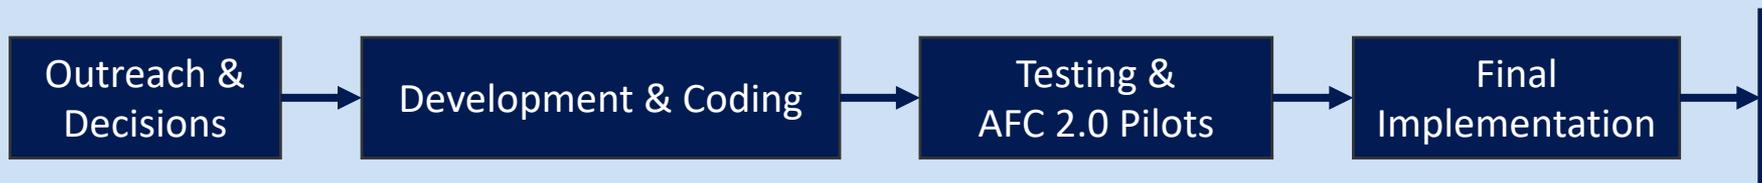

# Fare Policy Changes: Two Critical Paths

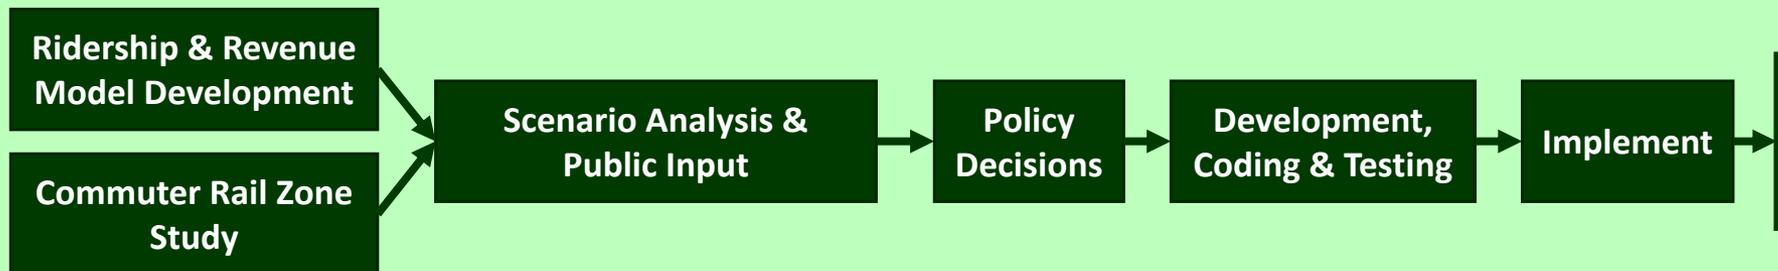

BEYOND FOUNDATIONAL POLICIES ESSENTIAL TO AFC 2.0, THERE ARE TWO PATHS FOR OTHER POTENTIAL FARE POLICY CHANGES DEPENDING ON THE NEED FOR FURTHER STUDY AND ANALYSIS

- Certain decisions should be informed by the Commuter Rail Zone Study and ridership/revenue modeling, both in development, some policies require tap-out fare gates
- Fares **cannot** increase for three years, so any fare changes implemented before July 1, 2022 will likely be revenue-negative (not considering ridership increases)

## A) Changes ready for discussion, outreach, and decisions

## B) Changes requiring further study and analysis

# Types of Changes on Each Path

BEYOND FOUNDATIONAL POLICIES ESSENTIAL TO AFC 2.0, THERE ARE TWO PATHS FOR OTHER POTENTIAL FARE POLICY CHANGES DEPENDING ON THE NEED FOR FURTHER STUDY AND ANALYSIS

- **Are there additional fare policy changes that should be considered?**

## A) Ready for Discussion, Outreach, and Decisions

- Free or step-up transfers for commuter rail and ferry, transfer windows
- Limited outside the gate transfers
- Rolling period passes
- Combine Inner and Outer Express Bus
- Travel in either direction on Commuter Rail Zone Pass

## B) Require Further Study and Analysis

- New passes / products
- New fare structures – Time/Day, Direction, Distance, Capping
- Changes to commuter rail zones
- Changes to pass validity or extension fares for bus/rapid transit passes

# Next Steps

AFC 2.0 TEAM CONTINUING WORK ON BOTH PATHWAYS IN PARALLEL

## Path A: Ready for Discussion

- Finish revenue impact estimates
- Public workshop on possible changes (June)
- Present proposal to FMCB (July)
- Title VI equity analysis
- FMCB approval (August)

## Path B: More Analysis

- Finish revenue/ridership model and CR Zone study (End of 2019)
- FMCB update (October 2019)
- Develop set of future scenarios (Winter 2019-2020)
- Public outreach workshops (Spring 2020)
- FMCB prioritization (May 2020)
