## Route 100

## Elm Street - Wellington Station

## Route Overview

Route 100 ElmStreet - Wellington Station is a Local route operates between Fellsway West just north of I-93's Exit 33 (Roosevelt Circle) and Wellington Station. The route primarily serves residential neighborhoods in Medford and Malden, as well as several shopping centers located just west of Wellington Station.
Figure 1 |Service Map

## Network Importance

Route 100 is of moderate importance within the overall network (see Figure 2). On a scale of 0 to 10 , the route rates 2.4 in terms of ridership, 4.3 in terms of transit dependent ridership, and 6.4 in terms of its value to the network (which reflects the number of people who are uniquely served, the number of jobs and other important destinations, and the number of transferring passengers). Its overall score, which gives a $70 \%$ weight to overall ridership and a $15 \%$ weight to both other measures, is 3.5 .

Figure 2 | Relative Importance within MBTA Bus Network (on a scale of 0 to 10)

## Service Patterns

## Schedule

Route 100 runs from early morning until after midnight seven days a week, somewhat frequently during the weekday peak periods and less frequently at other times and on weekends (see Table 1). On weekdays, the route runs from 5:02 AM to 12:41 AM:

- Service operates about every 20 minutes during the AM and PM peak.
- Off-peak trips operate every 30 minutes until 7:30 PM.
- From 7:30 PM until the end of service, the route operates every hour.

On weekends, Route 100 operates with a slightly reduced span of service, with trips about every 30 minutes on Saturdays from 5:15 AM to 12:39 PM and every 60 minutes on Sundays from 5:50 AM to 12:41 PM.

Route 100 meets the MBTA span of service and frequency standards for Local bus routes on alldays.

Table 1 | Schedule Statistics

| SERVICEDAY | SPAN OF SERVICE | FREQUENCY <br> (RANGE) | FREQUENCY <br> (AVERAGE) | DAILY TRIPS <br> (INBOUND/OUTBOUND) |
| :--- | :--- | :---: | :---: | :---: |
| Monday-Friday | 5:02 AM to 12:41AM |  |  | $37 / 36$ |
| Sunrise | 5:02 AM to 5:59 AM | $28-30$ | 29 | $2 / 2$ |
| Early AM | 6:00 AM to 6:59 AM | $20-40$ | 30 | $2 / 1$ |
| AM Peak | 7:00 AM to 8:59 AM | $20-35$ | 25 | $6 / 6$ |
| Midday Base | 9:00 AM to 1:29 PM | $35-35$ | 35 | $7 / 8$ |
| Midday School | 1:30 PM to 3:59 PM | $35-45$ | 37 | $5 / 4$ |
| PM Peak | 4:00 PM to 6:29 PM | $20-45$ | 20 | $6 / 7$ |
| Evening | 6:30 PM to 9:59 PM | $14-60$ | 40 | $6 / 5$ |
| Late Evening | 10:00 PM to 11:59 PM | $60-60$ | 60 | $2 / 2$ |
| Night | 12:00 AM to 12:30 AM | $60-60$ | - | $1 / 1$ |
| Saturday | 5:15 AM to 12:39 AM | $26-60$ | 33 | $35 / 34$ |
| Sunday | 5:50 AM to 12:41AM | $\mathbf{2 9 - 6 0}$ | 55 | $\mathbf{2 9} / 19$ |

Note: Span of service reflects the time the first bus begins service until the time the last bus finishes service.

## Service Patterns

Most Route 100 service runs the full length of the route from Fellsway West opposite Elm Street to WellingtonStation (Pattern 100.3). On weekdays one trip ends at the Fellsway Garage near Fellsway and Salem Street as buses pull out of service (Pattern 100.0). On weekends, late evening service operates only as far as Roosevelt Circle (Pattern 100.1)
Table 2 | Service Patterns

| PATTERN | ORIGIN | DESTINATION | UNIQUE FEATURE | $\begin{aligned} & \text { TRIPS } \\ & \text { PER } \\ & \text { WKD } \end{aligned}$ | $\begin{aligned} & \text { TRIPS } \\ & \text { PER } \\ & \text { SAT } \end{aligned}$ | $\begin{aligned} & \text { TRIPS } \\ & \text { PER } \\ & \text { SUN } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| INBOUND |  |  |  | 37 | 35 | 20 |

| 100.3 | Fellsway West opposite Elm Street | Wellington Station Busway | Primary Service Pattern | 36 | 31 | 16 |
| OUTBOUND |  |  |  | 36 | 34 | 19 |
| 100.1 | Roosevelt Circle | Wellington Station | Weekend evening cut-back | - | 4 | 4 |
| 100.3 | Wellington Station Busway | Fellsway West opposite Elm Street | Primary Service Pattern | 36 | 30 | 15 |

## Ridership

Route 100 carries about 730 passengers on weekdays, 445 passengers onSaturdays, and 230 passengers on Sundays. Route 100 is one of the MBTA's lowest ridership Local routes. It also has very low ridership compared to other routes operating at comparable frequencies.

## Ridershipby Stop

The vast majority of Route 100 customers - approximately $90 \%$ - use the route to travel to and from the Orange Line (see Figure 3). On weekday inbound trips:

- 36 passengers board on Fellsway opposite of Elm Street.
- 13 passengers board and three alight at Roosevelt Circle.
- 42 passengers board and one alights at Fellsway at Fulton Street, near St. Francis School.
- The next four stops along Fellsway between Fulton Street and Salem Street generate a total of 48 boardings and zero alightings.
- 46 passengers board and five alight at Fellsway at Salem Street, near the Stop \& Shop.
- The next three stops before Central Avenue have a total of 35 boardings and zero alightings.
- Fellsway at Central Avenue generates 50 boardings and two alightings.
- Fellsway at Myrtle Street generates 44 boardings and one alighting.
- The three stops between Fellsway at Myrtle Street and Wellington Station generate 59 boardings and 29 alightings.
- 342 passengers alight at WellingtonStation.

Ridership patterns are similar on weekends, albeit with lower passenger volumes.

## Ridershipby Trip

On weekdays, Route 100 operates approximately every 20 minutes during peak periods and every 30 to 60 minutes during off-peak periods (see Figure 4 and Figure 5). Ridership on all trips is low. Peak period peak direction trips serve 20 to 25 passengers and midday trips generally serve 10 or fewer passengers. Outbound trips carry close to 20 passengers until 6:00 PM, and ridership declines to four riders on the last outbound trip at 12:30 AM.
On Saturdays and Sundays, ridership exceeds 10 passengers on only a few trips (see Figure 6 through Figure 9).

Figure 8 | Sunday Ridership by Trip: Inbound

Figure 9 |Sunday Ridership by Trip: Outbound

## Passenger Comfort

The MBTA desires that passengers travel in relatively comfortable conditions. At the same time, the MBTA's definition of comfort reflects the very high volume environment in which the MBTA operates, and that some passengers may have to stand for a portion of their trip. More specifically, at least $92 \%$ of passengers' travel times should be in comfortable conditions, and ideally, at least 96\% of travel times should be in comfortable conditions. Comfortable conditions are considered to be $140 \%$ or less of seated capacity during high volume periods and $125 \%$ or less during other periods.

On Route 100, nearly 100\% of passenger minutes are in comfortable conditions, reflecting the route's low overall ridership (see Table 3).

Table 3 | Passenger Time Spent Traveling in Comfortable Conditions

|  | WEEKDAYS | SATURDAYS | SUNDAYS |
| :--- | :---: | :---: | :---: |
| Minimum Standard | $92 \%$ | $92 \%$ | $92 \%$ |
| Target | $96 \%$ | $96 \%$ | $96 \%$ |
| Actual | $99.7 \%$ | $100.0 \%$ | $100.0 \%$ |

## Reliability and Speed

## Reliability

Route 100 operates just below the minimum service reliability standard, with 69\% reliability on weekdays (see Table 4). On-time performance is significantly affected by traffic conditions during peak service, especially near Wellington Circle.

Table 4 | Reliability

| SERVICEDAY | $\begin{aligned} & \text { ORIGIN/MID- } \\ & \text { ROUTE ON-TIME } \\ & \text { PERFORMANCE } \end{aligned}$ | $\begin{aligned} & \text { DESTINATION } \\ & \text { ON-TIME } \\ & \text { PERFORMANCE } \end{aligned}$ | OVERALL RELIABILITY | DROPPED TRIPS |
| :---: | :---: | :---: | :---: | :---: |
| Monday-Friday | 68\% | 73\% | 69\% | 0.1\% |
| Saturday | 75\% | 78\% | 76\% | - |
| Sunday | 68\% | 72\% | 69\% | - |

## Running Times

Weekday inbound trips run as much as 10 minutes behind schedule on average, meaning the typical running time is 40 to $50 \%$ longer than the schedule. Midday trips mostly run to the schedule.

Figure 10 |Scheduled \& Median Travel Time by Trip: Route 100 Inbound

Figure 11 | Scheduled \& Median Travel Time by Trip: Route 100 Outbound

## Stop Spacing

Route 100 has approximately six stops per mile on average, at the high end of the four to sevenstops per mile recommended for urban areas under MBTAguidelines. The route has closer stop spacing when running through primarily residential neighborhoods, with about nine stops per mile between Fulton Street and Myrtle Street. Given the poor walking conditions along Fellsway, however, this spacing is likely needed to facilitate local access to transit.

## Summary

Route 100 is designed to connect residential areas along Fellsway West with Wellington Station. The market that the route serves is small and the amount of service that the route provides is very high relative to ridership. The route is challenged by low on-time performance and suffers from reliability issues.
