

MBTA Late-Night Service Changes

The MBTA invites you to attend a public meeting to share your comments about the future of late-night service.

The MBTA Late-Night Pilot Program was started in March 2014. Since then, the MBTA has run service 90 minutes longer on all subway and key bus routes on Friday and Saturday nights. The purpose of these public meetings is to discuss current usage, the budget, and closure dates, and to introduce a conversation about how, together with public input, we might design a future late-night service.

If you are unable to attend a meeting, a copy of the presentation is available at www.mbta.com

- Comments about MBTA late-night service will be accepted through Friday, February 12, 2016.
